The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/551,931	Applicant(s) SU ET AL.	
	Examiner Maryam Monshipouri	Art Unit 1656	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Species Election

This application contains claims directed to the following patentably distinct species: Claims 1-11 are directed to the following distinct species unrelated structure:

(a) protein conjugates comprising 1-3 hemoglobins (Hb) and 1-3 human serum albumins (HSA).

(b) protein conjugates comprising 1-2 hemoglobins and 1-2 human serum albumins.

(c) protein conjugates comprising 1 hemoglobin and 1 human serum albumin.

Currently claims 1-11 are generic.

Claim 10 is additionally and independently directed to the following distinct species of methods of different steps:

1) Purification of Hb-HSA conjugates comprising ion exchange chromatography.

Purification of Hb-HSA conjugates comprising ultra filtration.

2) Purification of Hb-HSA conjugates comprising gel filtration chromatography.

3) Purification of Hb-HSA conjugates comprising ion exchange chromatography and ultra filtration.

4) Purification of Hb-HSA conjugates comprising ion exchange chromatography and gel filtration chromatography.

5) Purification of Hb-HSA conjugates comprising ultra filtration and gel filtration chromatography.

6) Purification of Hb-HSA conjugates comprising ion exchange chromatography, ultra filtration and gel filtration chromatography.

Likewise, claim 9 is additionally and independently generic to the following distinct species of unrelated steps:

- I) Hb/HSA conjugation in one step coupling.
- II) Hb/HSA conjugation in a two step coupling.

Applicant is advised to elect one species from groups a-c, 1-6 and I-II simultaneously, in response to this office action.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. **Currently, claims 1-11 are generic.**

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).
